We often find quite a number of the weekly bulletins are left behind at the end of a service and want to be good stewards of both natural resources and our church finances. Following proposals from our Environmental Team, we are reducing the number of printed copies of the church bulletin and encouraging the congregation to instead try accessing this from the church website or by using the QR code. This code is displayed on the cupboard on the entrance to the sanctuary and can be scanned on a phone to provide an electronic copy.
